Card capacity> Automatic feed: 100-card input for 0.030 in. (0.76 mm) cards; 25-card output standard Manual feed: 1-card input; 5-card output for 0.030 in. (0.76 mm) cards.

## SD 360 DATACARD PRINTER (DUPLEX)

Two sided printer(Duplex)/ Superior speed and productivity/Superb image quality for high impact lds/Easy operation that anyone can master/Full-color and monochrome printing capability./300 dots per inch, 256 shades per color panel./Full-color printing: up to 200 cards per hour/one-sided (YMCKT\*); up to 155 cards per hour/two-sided (YMCKT-K\*)Monochrome: up to 830 cards per hour/one-sided (black HQ\*). Automatic feed: 100-card input for 0.030 in. (0.76 mm) cards; 25-card output standard Manual feed: 1-card input; 5-card output for 0.030 in. (0.76 mm).

## SD 460 DATACARD PRINTER (DUAL SIDED)

One- or two-sided edge-to-edge printing, with standard one-sided and optional two-sided lamination Ultraviolet fl uorescent printing Full-color and and monochrome printing capabilities Alphanumeric, text, logos, digitalized signatures, 1D/2D bar code images Printer pooling/sharing/300 dots per inch, 256 shades per color panel.

## Bixolon SLP DX 220

2inch Direct thermal/6inches per second (152mm/sec)/resolution 300dpi/moverble sensor side to side/ RESOLUTION : Standard : 203dpi(8dot/mm)Optional(SLP-D223) : 300dpi (11.81dot/mm)/printing width 54mm/Alphanumeric Character : 95

## Bixolon SLP DX 420

4" Direct thermal label printer/printing speed is up to 6 inches per second/interfaces Serial+Parallel +USB/RESOLUTION : 203 dpi(standard), SLP-D423 : 300 dpi (optional)/ PAPERWIDTH : 25~116mm/ PAPER ROLL DIAMETER : ID-25.4~38.1mm/OD-Max.130mm

## Bixolon SRP 770 III

This is the first label printer developed with the technological power of Samsung, which has been proved in the POS printer market. The Printing speed is up to 5 ips (127 mm/s) and has Fast data processing speed for various types of label, The SRP-E770III is fully compatible with market-leading programming languages; Smart switch progamming language without setting the mode(4 inch Direct Thermal)

Verticals> Retail, Health Care, Post & Parcel, Ware House & Storage Handling

## Bixolon TX 400

The NEW model has both direct thermal & thermal transfer label printing capabilities with 4 inch wide printing. This high-quality label printer features fast print speed up to 7ips (178mm/sec) and high compatibility based on perfect emulation support. The SLP-TX400 has Smart Media Detection function which automatically recognizes various types of labels when loading labels.

Verticals> Retail, Health Care, Post & Parcel, Ware House & Storage Handling

## Zebra ZT 410

The ZT410 Series printers are rugged and loaded with a standard set of advanced features allowing for use in the widest array of Manufacturing, Transportation and Logistics, Health care and Retail applications. Building on the Z Series' reliability with advancements in print speed, connectivity options, management and support tools, the ZT410 can be integrated into a wide range of environments.

## DESKTOP RECEIPT PRINTERS

### X-POS 330 USB & Parallel Interface

A 3 inch thermal POS printer to provide all you need. It supports a printing speed of 200mm/sec. 5.90" 180dpi/ Sensor Paper End, Near End & Cover Open /Print width up to 72mm / Memory 64 Mbit SDRAM, 16 M bit Flash ROM/ Offers easy Drop in paper Loading with auto feed & auto cutter.

### X-POS 350 II USB/Serial/Parallel/Ethernet

A 3 inch thermal POS printer to provide all you need. It supports a printing speed of 200mm/sec. 5.90" 180dpi/ Sensor Paper End, Near End & Cover Open /Print width up to 72mm / Memory 64 Mbit SDRAM, 16 M bit Flash ROM/ Offers easy Drop in paper Loading with auto feed & auto cutter.

### X-POS 802A Thermal Receipt Printer

The 3 inch POS printer comes with the combination of three interface connectors i.e. USB Serial & Ethernet. With high resolution of 203 DPI, print speed of up to 250mm/sec, and print columns of 512 dots per line the robust printer head comfortably will give a service of 100 kilometres of print rolls and 1,00,000 cutter times.

### Bixolon SRP 275 Impact/Dotmatrix

The BIXOLON SRP-275 receipt printer offers reliable, fast and enhanced easy-to-use features important to restaurant, hospitality and retail environments. The Impact/Dotmatrix Thermal Printer has the capacity to print on carbon paper and is optimized for high speed customer receipts, allowing kitchen orders to print faster than ever with two-colour, black and red printing to highlight special offers and print logos. Bi-directional print technology allows higher printing speed of up to 5.1 lines per second and quiet printing for a peaceful atmosphere.

### Bixolon F312 Kitchen Printer

It is based on the technological power of the SRP-350 series which is widely recognized in the market for its quality and reliability and as an environment-friendly future-oriented product. It is downpour water resistance/Direct thermal/print speed 270mm per sec/paper width 80mm/Paper roll diameter Max Ø 105mm/Interface USB 2.0 on board / Serial(RS-232C) / Parallel (IEEE 1284) / Ethernet / USB host port for WLAN dongle.

Verticals> Restaurant Kitchen Department

## THERMAL RECEIPT PRINTER

### X-POS E260N

#### Features

- Horizontal, Wall-hanging design.
- Easy of use feature include drop in paper load and auto cutter.
- Flexibility interface include USB, Serial, ethernet all in one.

## MOBILE BLUETOOTH PRINTER

### Bixolon SPP R200

This is a small and lightweight mobile receipt printer A prudent choice for any mobile receipt printing application where you need fast, on demand printing with speeds up to 80mm per second (3.15inches/sec). The SPP-R200 also utilizes a long-life Lithium-ion battery with a 8 hour continuous operation life. The magnetic card reader integrated into the printer allows credit cards to be processed immediately at the point of transaction, increasing customers' sense of security since the credit card does not leave their sight.

Verticals> Mobile POS Retail, Mobile Health Care, Post & Parcel, Hospitality

### X-POS P500

XP-P500 is a receipt & label printer with fashionable design and splendid quality. It supports NV logo download picture printing ( picture BMP ), support concentration adjustment, supports IAP online upgrade, supports paper shortage alarm, power will try to beep prompt, default 60 minutes without printing automatically shutdown to protect power, support thermal paper label positioning printing.

#### Features

- Energy save function design;
- Support 2 dimension code printing;
- High speed printing;
- Large paper bin capacity

## X-POS P810

XP-P810 has patented function: Power charging by power bank/computer, long lasting battery life(Up to 2000mAh), support IOS app and Android device connection, support Bluetooth and Wifi connection, large paper roll capacity(diameter 50mm).

### Features

- Long lasting battery life(Up to 2000mAh)
- Support IOS app and Android device connection
- Support Bluetooth and Wifi connection
- Large paper roll capacity(diameter 50mm)
- Patented function: Power charging by power bank/computer

## Wireless Payment Terminal

X-POS 8210 is a high performance and multiple function POS terminal. With its high security features and all in one design, the NEW POS 8210 offers perfect payment solution.

### Key Features

- High secure, PCI PTS 3.x approval
- Supports multiple tasks and multiple applications
- Elegant and slim design, convenient swiping card vertically
- Leading secure ARM11 processor, outstanding performance in mass data and EMV transactions
- Supports loading multiple applications. Multiple choices of integrated communication modules, such as GPRS, CDMA, WI-FI, PSTN, GPS and Ethernet Signature capture function
- Visa payWave, MasterCard PayPass approved

## X-POS®

### LX 2209

USB handheld Barcode Scanner, Manual or Auto trigger, Auto sense. With a resolution of 4 mil, light source 670 scan method vibrating mirror, 120 scans/ sec & decode rate of 300 decodes/sec. Reading pith angle +60. Reading skew angle +30, Reading rotation angle 15%, Reading width 32cm

Verticals> Retail, Health Care, Post & Parcel

### LX 8300(1D)

Wireless Laser barcode scanner, Memory: 4M, can expand to 8M, Mandatory reset, Communication distance: Empty place can reach 1200 meters, indoor for 300 meters, Six Floors of building barrier-free communication, Built-in antenna, reliable communications, the scope of work Support one to one, many to one, one base can support multiple scanners (up to 255 units) Gun ID display; 1500MA high-capacity lithium battery, charging time 10 hours, Beyond the receiver from the light and buzzer prompts; Decoding types; support USB interface.

### LX 8300(2D)

Robust 2D wireless scanner with communication range of up to 500 meters, a drop test of 1.8m on concrete surface and scan speed of 150scans/s. 4 hours charge will give 45 hours of continuous scanning. The trigger mode to scan is either manual or continuous.

### LX 6300 (2D)

The 2D barcode Scanner with system Interfaces USB, RS232 Support phone screen barcode reading. Sixth-generation of area-imaging technology, has redefined the standard for hand-held scanners. Featuring a custom image sensor that is optimized for barcode scanning, the X-POS LX 6300 (2D) hand-held area image scanner offers industry-leading performance and reliability for a wide variety of applications that require the versatility of area-imaging technology.

## TD1100 (1D Scanner)

The TD1100 series of linear imaging contact readers represent the Datalogic solution for customers who require a cost-effective solution for close contact bar code reading without sacrificing quality and performance. Designed for low throughput applications within multiple markets, the TD1100 readers provide the guarantee of contact reading with an excellent reading performance on virtually all linear bar codes, including damaged or poorly printed codes.

## QuickScan I Lite QW2100 (1D Scanner)

The QuickScan Lite QW2100 linear imager is an entry level product created specifically for reading long and truncated bar codes which is common in some areas of the world. It is perfect for use in retail, light manufacturing, document/bill processing and banking/finance environments.

## QuickScan I Lite QW2400 (2D Scanner)

The QuickScan Lite QW2400 2D area imager is an entry level scanner specifically designed for reading long and truncated 1D codes and larger 2D codes from close distance. The QW2400 imager has an extra-wide Field of View (FOV) which captures these challenging 1D and 2D codes at a nominal distance using different scan angles, meeting the scanning needs in Retail, Light Manufacturing, Document/Bill Processing and Banking/Finance. The QuickScan Lite 2D imager is the most affordable area imager with the best performance in its class.

# SCANNERS - Table Mount/Top Scanners

## X-POS LX 8000

Image capture 1D bar code reading performance for medium- to high-volume retailers such as drug, grocery, specialty soft goods, hard goods and department stores, the X-POS LX 8000 offers a cost-effective, hands-free solution. It is designed for maximum uptime to withstand the toughest and busiest retail environments.

## Datalogic Megellen 3200

The scanner is clearly superior by offering outstanding performance (Reading - scans per second of 39,000,000 pixels per second & Resolution (maximum) of 5 mils). Also offering other additional features currently not found in table top reader these features include 2D reading, 2D reading field upgrade-ability, image capture and reading bar codes from cell phones. Additional features such as the two 'good read' indicators and the Micro-SD card reader make the Magellan 3200VSi reader the obvious winner.

## Memor X3, Mobile Computer

The Memor X3 mobile computer brings a host of new features designed to strengthen Datalogic's value proposition in the area of compact and lightweight terminals. The Memor X3 mobile computer includes a full portfolio of models featuring different scan engine options, including an entry-level linear imager, a top-performance laser scanner with Gorilla® Glass II scan window, and a 2D imager ideal for pharmaceutical applications. All scan engines feature Datalogic's patented 'Green Spot' technology for good-read feedback.

## Skorpio X4, Mobile Computer

The Skorpio™ X4 mobile computer features a high performance multi-core 1 GHz architecture that offers blazing speed when running Windows Embedded Compact (WEC7) OS and allows easy migration to Android™ models. Users will never run out of memory with the standard 1 GB RAM and 8 GB Flash.

Equipped with the largest high-visibility 3.2 inch color display touch screen in its class, the Skorpio X4 mobile computer helps users work more efficiently. Three different keyboards are available for maximum efficiency: a 50-key alphanumeric keypad, a 38-key functional keypad and a 28-key numeric keypad.

The enhanced Wi-Fi now supports 802.11 a/b/g/n with MIMO antennas for maximum coverage. Bluetooth® v4.0 extends the capabilities for short range communications.

## HAMSTER™ PLUS

The Hamster Plus is SecuGen's popular and versatile fingerprint reader, with Auto-On™ and Smart Capture™. Featuring a comfortable, ergonomic design, The Hamster Plus is built with the industry's most rugged and advanced optical sensor using patented SEIR fingerprint biometric technology. The Hamster Plus can be used for authentication, identification and verification functions that let your fingerprints act like digital passwords that cannot be lost, forgotten or stolen.

### Features

- High-performance, maintenance-free optical fingerprint sensor
- Rugged sensor resistant to scratches, impact, vibration and electrostatic shock
- Auto-On™ – automatic finger detection technology
- Smart Capture™ – high quality fingerprint scanning of difficult fingers (dry, wet, scarred) in challenging environments and conditions such as under direct sunlight
- Compact, lightweight and portable
- USB connection
- Readily accessible for any finger
- Fast and accurate verification
- Fingerprint Device Recognition™

## HAMSTER™ IV

The Hamster IV is SecuGen's popular and versatile fingerprint reader that is FBI Certified. Featuring a comfortable, ergonomic design, the Hamster IV is built with the industry's most rugged and advanced optical sensor using patented SEIR fingerprint biometric technology. The Hamster IV can be used for authentication, identification and verification functions that let your fingerprints act like digital passwords that cannot be lost, forgotten or stolen.

### Features

- BI Certified (PIV, FIPS 201, Mobile ID FAP 10 Compliant) meets FBI Image Quality standards
- High-performance, maintenance-free optical fingerprint sensor
- Rugged sensor resistant to scratches, impact, vibration and electrostatic shock
- Auto-On™ – automatic finger detection technology
- Smart Capture™ – high quality fingerprint scanning of difficult fingers (dry, wet, scarred) in challenging environments and conditions such as under direct sunlight
- Compact, lightweight and portable
- Removable weighted stand
- USB connection
- Fast and accurate verification
- Latent print image removal (does not accept prints left behind)
- Encryption of fingerprint templates (with SecuGen Proprietary templates)

## Hamster Pro 10

The Hamster Pro 10 is SecuGen's new ultra-slim, high image quality USB fingerprint reader that is FBI Certified as meeting FIPS 201 (PIV) and Mobile ID FAP 10 requirements. Featuring a low-profile and an IP54 rated dust- and water-resistant design, the Hamster Pro 10 is built with the industry's most rugged and advanced optical sensor using patented fingerprint technology. The Hamster Pro 10 can be used for authentication, identification and verification functions that let your fingerprints act like digital passwords that cannot be lost, forgotten or stolen.

### Features

- FBI Certified (PIV, FIPS 201, Mobile ID FAP 10 Compliant) meets FBI Image Quality standards
- IP54 rated for dust and water-resistance
- High-performance, maintenance-free optical fingerprint sensor
- Rugged sensor resistant to scratches, impact, vibration and electrostatic shock
- Auto-On™ – automatic finger detection technology
- Smart Capture™ – high quality fingerprint scanning of difficult fingers (dry, wet, scarred) in challenging environments and conditions such as under direct sunlight
- Ultra-slim, super lightweight and portable
- USB connection
- Readily accessible for any finger
- Fast and accurate verification
- Latent print image removal (does not accept prints left behind)

## Hamster Pro 20

The Hamster Pro 20 is SecuGen's ultra-compact, high image quality USB fingerprint reader that is FBI Certified as meeting FIPS 201 (PIV) and Mobile ID FAP 20 requirements. Featuring a low-profile and IP65 rated dust- and water-resistant design, the Hamster Pro 20 is built with the industry's most rugged and advanced optical sensor using patented fingerprint technology. The Hamster Pro 20 can be used for authentication, identification and verification functions that let your fingerprints act like digital passwords that cannot be lost, forgotten or stolen.

### Features

- FBI Certified (PIV, FIPS 201, Mobile ID FAP 20 Compliant) meets FBI Image Quality standards
- STQC Certified (UIDAI, Aadhaar)
- Fake Finger Rejection – advanced technology that rejects spoofed fingerprints
- IP65 rated for dust and water-resistance
- High-performance, maintenance-free optical fingerprint sensor
- Rugged sensor resistant to scratches, impact, vibration and electrostatic shock
- Auto-On™ – automatic finger detection technology
- Smart Capture™ – high quality fingerprint scanning of difficult fingers (dry, wet, scarred) in challenging environments and conditions such as under direct sunlight
- Ultra-compact, lightweight and portable
- USB connection
- Readily accessible for any finger
- Fast and accurate verification

## Omniquey 3121 - Smart Card Reader

This is a high-performance, USB smart card reader for desktop use that features multiple-base mounting options and a robust housing.

- Plug-and-Play – Designed to facilitate easy device installation with high-quality drivers\* for all major PC operating systems.
- Readily Compliant – Meets all relevant industry standards for smooth integration in PC environment
- Convenient and Reliable – Multiple-base mounting options, robust housing, long USB cable
- Suits Any Application – Compatible with virtually any smart card and major PC operating system

## External Magnetic Stripe Reader/USB

It is designed to offer a card reading/writing solution for ISO formats. It reads and writes up to 3 tracks of data, decoding/encoding and verifying up to 3 tracks of data. MSR Reader/Writer provides a standard USB interface to communicate with host computer.

# CASH DRAWER

## X-POS BCD 410

The BC Series increases the effectiveness of your workstation with features such as durable design high security locking and mounting brackets. BC series integrates easily into a variety of counter applications and the removable till allows money to be removed from the sales point to a more secure location for counting and creating bank deposits. The versatile models are available with a wide range of bill grip, style, colour, and interface and till cover options to meet your specific requirements.

# CUSTOMER DISPLAY POLE

## X-POS Display Pole USB Interface

Display: VFD, Blue-green (505mm) of Characters: 40 (20 x 2 lines) Brightness: 800 ~ 1000 cd/m<sup>2</sup>

## CUBEE WONDER 615

## FEATURES

### TRUE-FLAT DISPLAY

Equipped a PCAP touch to create a precise and responsive touch experience.

### HIGH LEVEL OF INGRESS PROTECTION

The sealed, IP65-rated front bezel makes it easy for cleanup as well as protect the system against water, dust, grease and food build-up

### FANLESS & VENTLESS DESIGN

An aluminum die-casting back cover is designed to be fanless and ventless to provide well heat dissipation.

### RUGGED & RELIABLE

Well-engineered, high performance and reliable technology combined with modern and innovative design.

## ULTRA 1.8M ABS PEDESTAL SYSTEM

### Affordable anti-theft protection in a modern, durable design

The new Ultra 1.8 ABS self-contained AM EAS system offers retailers an affordable and reliable anti-theft solution. The pedestal's sleek open frame blends seamlessly into any retail setting while providing a visual deterrent against theft and delivering superior pick rates in all environments, even noisy ones.

The on-board electronics are contained within the base cover of the primary pedestal, eliminating the need for an external controller and reducing installation and maintenance costs. The coverage area is 0.9m (3 ft) for a single door and 1.8m (6 ft) for double doors. The integrated alarm located in the base of the primary pedestal uses a distinguished audible alarm to notify store personnel if protected merchandise passes through the detection zone and also illuminates

Close" is an offered feature developed to help store associates better manage merchandising of tagged goods at the front of the store. This feature helps reduce unnecessary and costly service calls and decreases nuisance alarms to enhance the shopper experience.

### Retailer Values

- // Provides shoplifting coverage up to 1.8m (6 ft) between pedestals to protect critical assets
- // Delivers superior pick rates in all environments
- // Jammer detection combats organized retail crime
- // High-impact ABS construction provides long-term durability for virtually any retail setting
- // Integrated audible and visual indicators immediately notify store associates of alarm events
- // EAS Intelligence option allows for delivery of in-store metrics to better manage loss prevention and optimize store operations
- // "Tags-too-Close" feature helps reduce unnecessary and costly service calls and helps manage merchandising of tagged products at the storefront
- // Electronics are located in the primary pedestal to help reduce install and maintenance costs

Sensormatic®

## CORE POS SOLUTION!

CORE POS is a complete Retail Management System designed to run Retail businesses more efficiently. It helps to manage Inventory & Sales more effectively and gives you better visibility of Stocks, Profitability and Collections.

### Software Features

#### Fully Functional Point of Sale - Generate cash / credit sales

- Quick Error-Free Sales
- Cash Sales
- Credit Sales
- Credit Card Sales
- Refunds
- Multi currency

#### Inventory Management :

- Re-order levels
- Fast moving items report
- Slow moving items report
- Stock Report

#### Bar-coding (International / Create your own)

- Use existing bar codes
- Create your own bar codes

#### VAT Returns

- Compliant with Revenue Authority
- Generate Monthly Output VAT Report

#### Integrates with:

- Fiscalised software works with fiscal printers or ESD
- Cash Drawers
- Customer Display Poles
- Bar code Scanners
- Bar code Printers

#### Better Business Visibility & Control

- Daily/ Monthly profitability report
- Daily Cash reconciliation
- Supervisory Authorization of Discounts, Voids
- Replace Passwords with Finger Prints (Optional)
